FARIBAULT AND SAKATAH SINGING HILLS STATE TRAIL

ABOUT THE TRAIL

When complete, the Mill Towns State Trail will span approximately 25 miles and connect the cities of Faribault, Dundas, Northfield, Waterford, Randolph and Cannon Falls. It will also connect the Sakatah Singing Hills State Trail in Faribault with the western end of the Cannon Valley Trail in Cannon Falls.

There are currently three sections of trail open for use:

A 2-mile paved section between Cannon Falls and Lake Byllesby connects to Hannah's Bend Park and the city of Cannon Falls trails. These, in turn, connect to the nearly 20-mile Cannon Valley Trail to the east. The western end connects with Dakota County's Lake Byllesby Regional Park and Goodhue County's Byllesby Park.

A 3-mile paved section connects the cities of Northfield and Dundas. This trail was built as a local trail, but has been considered a part of the Mill Towns State Trail since the Master Plan was completed in 2005.

At its north end, this section connects to the city of Northfield trails near Babcock and Riverside parks. At its south end, it connects with the city of Dundas trailhead and local trails.

A 1.5-mile section exists in Faribault between White Sands Park and Park Avenue. This section connects to a network of local trails and city parks.
