

# TAYLORS FALLS AREA ST. CROIX RIVER PORTAGE

**NOTE:** This map is downloadable as a GeoPDF to be used in the Avenza Maps app. Verify your location as you portage!

Portage is approximately 1.3 miles long. Takeout at unmarked portage on the west side of the river, near the fencing. Expect a 2'-3' embankment with tall vegetation.

Proceed south on the shoulder of Chisago St. until you reach Highway 95. Take sidewalks on Highway 95 through the main street of Taylors Falls until you reach the end of the shops. Take a left and look for signs guiding you to the walkway under the Highway 8 bridge. This will take you into Minnesota's Interstate State Park.

From the park's visitor center, take the asphalt path past the glacial potholes area and down to the tour boat landing area. This is not a designated access. Only those portaging may launch here. Do not use the floating dock (private property). This area has a rocky shoreline and a swift current, use caution.

Contact Minnesota's Interstate State Park for more information, 651-539-4500.

## TAYLORS FALLS AREA DETAIL
